

①  $x = -8$  vertical line

②  $y = -9$  horizontal line

③  $y = x + 5$   $m = 1$   $b = 5$

④  $y = -\frac{1}{4}x + 5$   $m = -\frac{1}{4}$   $b = 5$

⑤  $2x + y = 4 \rightarrow$  standard form!

$-2x$   $-2x$

$y = -2x + 4 \rightarrow$  slope-intercept form!

⑥  $y = \frac{1}{2}x - 3$

⑦  $3x + 5y = -5$

$5y = -3x - 5$

$y = -\frac{3}{5}x - 1$

⑧  $x = 10$

⑨  $y = 7$
